

For Immediate Release  
February 8, 2012

### High Point Athletic Complex

The City of High Point has started construction of Phase II of the High Point Athletic Complex improvements. The \$1,618,450 contract was awarded to Dunbar and Smith, Inc. The project is scheduled to be completed by July 5, 2012. Included in the improvements are a new 2,400 square foot concession restroom building, 1,000 seat bleacher system, sport lighting, scoreboard/Public Address System for the Aderholdt Track area and improved pedestrian access to the bleachers.

The entrance to the track has been rerouted to make the site as safe as possible for continued usage of the track during the construction period. In addition the track area may be closed from time to time to insure the safety of all concerned while heavy equipment is being operated in the area. The track closing will be posted at the temporary entrance to the track, on our web site [www.highpointnc.gov/pr](http://www.highpointnc.gov/pr) and by calling the Parks and Recreation Administrative offices at 883-3469. We will make every effort to give track users 24 hours notice of the track closing.
