WASTEWATER SPILL OFF PENDLETON STREET

HIGH POINT, N.C. (October 9, 2018) – On Monday, October 8, the City of High Point had a wastewater spill of an estimated 1,200 gallons behind 519 Pendleton Street. Of this total, 1,200 gallons reached the waters of the state, and the untreated wastewater spilled into an unnamed tributary of the Deep River. The spill was determined to be caused by debris, and the Division of Water Quality was notified of the event the same day as is reviewing the matter.

For additional information or questions, residents should contact the Public Services Department at 336.883.3215.

House Bill-1160, which the General Assembly enacted in July 1999, requires that municipalities, animal operations, industries and others who operate waste handling systems issue a news release when a waste spill of 1,000 gallons or more reaches surface waters. This notice was sent in accordance with that regulation.

The City of High Point aims to serve as the catalyst for bringing together the community's human, economic and civic resources for the purpose of creating the single most livable, safe and prosperous community in America. For more information on the City, visit www.highpointnc.gov.
