## **ADJUSTED SOLID WASTE COLLECTION SCHEDULE**

**HIGH POINT, N.C. (December 11, 2018)** – Many of the residential streets have one set of tracks where people have been traveling. Collection trucks will utilize these tracks to maneuver throughout the collection areas. Carts should be placed out by 7 a.m. each day. If an area or cart is unserviceable due to dangerous conditions or if the cart is placed too far from the trucks' ability to reach, collection will be skipped until next week. Our first priority is safety for our staff and customers. We anticipate some will not physically be able to place their carts out., or others may choose not to go to the trouble. We anticipate next week will yield heavier volumes. We will make sure that all are collected next week and provide this essential service, but every effort will be made to collect as much as possible garbage and recycling this week.

Our revised schedule for the remainder of the week will be:

- Monday routes – will be collected on Wednesday, December 12
- Tuesday routes – will be collected on Thursday, December 13
- Wednesday routes – will be collected on Friday, December 14
- Thursday routes – will be collected on Saturday, December 15
