PUBLIC HEARING FOR PROPOSED LANDFILL EXPANSION JUNE 17

HIGH POINT, N.C. (May 13, 2019) – The High Point City Council will hear details of the City’s proposed Area 3 expansion of the Kersey Valley Municipal Solid Waste Landfill during a public hearing on Monday, June 17, at 5:30 p.m. in the City Hall Council Chambers.

The proposed expansion includes approximately 19.2 acres of waste footprint located at the City’s landfill facility on Kivett Drive. Based on projected waste acceptance rates, the expansion is projected to serve the City for approximately 20 years. Approximately 0.5 acres of the expansion site will require annexation, and the properties of the expanded landfill facility will be rezoned to the Heavy Industrial District. In addition, Council must approve a Special Use Permit (19-01) to include the annexed and rezoned properties in the facility boundary.

At the hearing, representatives of the City’s consulting engineers, Smith Gardner, Inc., of Raleigh, will provide information about the proposed site plans and waste management activities. If approved by Council, permitting documents for the Area 3 expansion will be submitted to the N.C. Department of Environmental Quality Division of Waste Management.

For more information, please contact Public Services Assistant Director Robby Stone at 336.883.3215 or at robby.stone@highpointnc.gov.

The City of High Point aims to serve as the catalyst for bringing together the community’s human, economic and civic resources for the purpose of creating the single most livable, safe and prosperous community in America. For more information on the City, visit www.highpointnc.gov.
