WASTEWATER SPILL NEAR 3216 BOWERS AVE

HIGH POINT, N.C. (April 19, 2020) – On April 17, 2021, the City of High Point had a wastewater spill of an estimated 4,680 gallons on the Deep River outfall near 3216 Bowers Ave. Of this total, 3,398 gallons reached the waters of the state.

The untreated wastewater spilled into an unknown tributary of the Deep River. The spill was determined to be caused by grease. The Division of Water Quality was notified of the event on April 17, 2021, and is reviewing the matter. For additional information or questions, residents should contact the Public Services Department at (336) 883-3215.

House Bill-1160, which the General Assembly enacted in July 1999, requires that municipalities, animal operations, industries and others who operate waste handling systems issue a news release when a waste spill of 1,000 gallons or more reaches surface waters. This notice was sent in accordance with that regulation.

The City of High Point aims to serve as the catalyst for bringing together the community's human, economic and civic resources for the purpose of creating the single most livable, safe and prosperous community in America. For more information on the City, visit www.highpointnc.gov.
