BULK WASTE COLLECTION DELAYED

High Point, N.C. (May 14, 2021) – Effective immediately, environmental services' bulk collection will run on a modified schedule due to limited staffing and continued volume increase. As a result, residents' bulk items may be picked up at a different time or possibly on a different day than typically scheduled.

Bulk collection is the only service impacted at this time; all other collection services are operating as usual.

The City asks customers to please remember that the Environmental Services Department is doing all it can to reestablish the regular bulk collection schedule.

Environmental services' priority is providing residents with reliable service, and your patience and understanding are appreciated.

The City of High Point aims to serve as the catalyst for bringing together the community's human, economic and civic resources for the purpose of creating the single most livable, safe and prosperous community in America.
