**BOIL WATER ADVISORY ISSUED FOR 14 HIGH POINT RESIDENTS**

**HIGH POINT, N.C. (Nov. 20, 2021)** – The water consumers of The City of High Point in the 1500 Block of Delk Drive, 1805 McGuinn Drive and 1901 McGuinn Drive (approximately 14 customers) are experiencing periods of low pressure and outages in the distribution system due to a water main break and are under a boil water advisory until further notice.

Periods of low or no pressure in the distribution system increase the potential for back siphonage and the introduction of bacteria into the water system.

Therefore, when water service is restored, consumers are advised to **boil all water** used for human consumption (including drinking, making ice, brushing teeth, washing dishes and food preparation) or use bottled water.

Vigorous boiling for one minute should kill any disease-causing organisms that may be present in the water.

Water customers are strongly urged to conserve water whenever possible. This advisory remains in effect until further written notification is issued.

This advisory has been issued on Nov. 22, 2021, by Terry Houk, Public Services Director for the City of High Point.

*The City of High Point aims to serve as the catalyst for bringing together the community's human, economic and civic resources for the purpose of creating the single most livable, safe and prosperous community in America.
