Following are additions/deletions/clarifications to the solicitation

1. **Change** the bid due on pages 1 and 5. **The bid due date has been changed to Wednesday, December 7, 2016 before 2:00pm.**

2. **Change** Section C. Specifications on page 29 to read as follows:

   Graphics on non-window surfaces are to be:
   Produced on 3M IJ180Cv3 vinyl film
   Laminated with 3M Scotchcal Luster Overlaminate 8519

   Graphics on window surfaces are to be:
   Produced on 3M 8170-P50 vinyl film
   Laminated with 3M Scotchcal Optically Clear Overlaminate 8914

   All graphics are to be:
   Digitally printed with HP Latex inks
   Premasked with Application Tape **(3M tape is not a requirement)**
   CAD cut to shape
   Warranted by 3M MCS (Matched Component System)
   Installed by a 3M Certified installation company

   Any deviations from these specifications must be accompanied with sufficient documentation for High Point Transit System staff to determine whether the deviations are acceptable equivalents.

3. See the attached **revised** document showing the sizes and location of decals.

Following are questions received about the solicitation and the answers to the questions.

4. Are the graphics meant to be installed on the bumpers? We recommend not installing vinyl on the bumper surfaces as these get damaged quite frequently and would become a reoccurring expense. **There are no graphics installed on bumpers.**

5. The graphics include the blue and grey stripes along with the logos and do not encompass the white sides correct? **Graphics include only the High Point Transit System logo, the City of High Point logo, and the website address. The blue and gray stripes are painted on the bus.**
