City Manager:	Greg Demko
Deputy City Manager:	Randy McCaslin
Incorporated:	1859
City Budget:	\$364,048,404.
Police Budget:	\$24,404,450.
Nickname:	North Carolina’s International City
Largest Employers:	Ralph Lauren, Bank of America, HP Regional UNC Health Care, Guilford County Schools, Thomas Built Buses/Daimler Trucks.
Counties:	Guilford, Davidson, Forsyth, and Randolph
Colleges:	High Point University Laurel University ITT Technical Institute South University Guilford Technical Community College

# Chief Marty A. Sumner Retires

February 2016, after 31 years in law enforcement, Chief Marty Sumner retired from High Point Police Department. Sumner said he was fortunate to be able to serve the community where he grew up. He hopes the strong core values of respect and communication will carry on.

# Message from the Chief

The following report is based on our fiscal year in order to correspond with our City Budget and our Goals and Objectives reporting requirements. It is comprised of information contained within our Records Management and Computer Aided Dispatch Systems. The purpose is to provide a summary of activities and trends in High Point over the previous year. Comparisons are made to prior years to provide context.

The High Point Police Department continues to be a data driven organization. We use the information along with crime analysis to develop strategies, manage personnel deployment and prioritize our focus for the good of the entire City. Through this review of information, we are able to coordinate focused efforts across the entire PD so that all of our resources are utilized to address issues we prioritize as being most critical. This process allows us to quickly adapt in order to respond to new problems as soon as they are identified.

Upon reviewing this year's report, I have identified the following significant points:

- Consistent with nationwide trends, our violent crime rate has once again increased over the previous year. This year's 4% increase is the first time in seven years we have seen two consecutive years of increase. Increases in homicides, rapes and aggravated assaults have driven this number up and this remains the most critical focus for our department.
- Property Crimes rates have also increased by 5% this year after we experienced a 15.7% decrease the previous year. A 30% increase in shoplifting is a major contributor for this problem and we have seen a lot of correlation between this and the wide spread problem of heroin addiction that continues to impact the country.
- Twelve individuals died in separate traffic collisions for the year. This is an increase of one accident over the previous period. A review revealed that in nearly all where the occupant of the vehicle died, no seatbelts were in use. There were also four incidents where a pedestrian or bicyclist was struck. This highlights the danger of distracted driving (texting, phone use, etc.). This trend has also been noted in accidents resulting in property damage and injuries. Ongoing enforcement efforts remain underway as we work to enforce distracted driving laws. The efforts include support from the Guilford County DWI Task Force and can be seen through traffic stops and license check points at critical locations.
- The nationwide problem with heroin continues to impact High Point. Addiction drives many problems and we continue to work with service providers to provide referrals for treatment while the PD focuses on those distributing and selling the drugs.

Chief Kenneth Shultz

# Core Values

## Crime Fighting

We are first and foremost a crime fighting organization. We aggressively and relentlessly pursue our goal of protecting our citizens from those who would do them harm. We are in all cases guided by the Constitution, laws, professional standards, and the standards of our community.

## Our Community

We know our greatest assets are the support and trust of our citizens. We guard that support and the faith of our community by holding ourselves accountable to the highest standards of integrity as individuals and as an organization. We admit and correct our own mistakes. We are open and honest with our citizens, allowing them to understand how we police so that they feel confident in supporting our efforts. We utilize the support of the community as a tool in the accomplishment of our goals and our mission through a true partnership with our citizens.

## Our People

Our department is not only a team, but also a family with a common mission. We treat each other with respect, and we hold each other accountable to the standards of our department, our profession, and our city. We assist each other at every opportunity. We help each other develop skills so that we can serve our community in the best way possible. First and foremost, we are honest and fair with each other in all dealings.

## Performance

The HPPD operates efficiently and effectively. We expend our energy and resources to obtain results that are in the best interests of our citizens. We strive to avoid wasting energy and resources on efforts that do not further our goals in a realistic manner. We work hard for our citizens, but we also “work smart,” doing those things that produce the best value.

## Mission

Our mission is to work with our citizens to provide for their safety, the safeguarding of their property, and to protect their ability to enjoy their rights by providing the ultimate in professional policing.

# Interacting with our Community

# High Point Police Crime Clock

The crime clock should be viewed with care. Being the most aggregate representation of UCR data, it is designed to convey the annual reported crime experience by showing the relative frequency of occurrence of the Part I Offenses. The mode of display should not be taken to imply a regularity in the commission of crime; rather, it represents the annual ratio of crime to fixed time intervals.

# Part I Crime

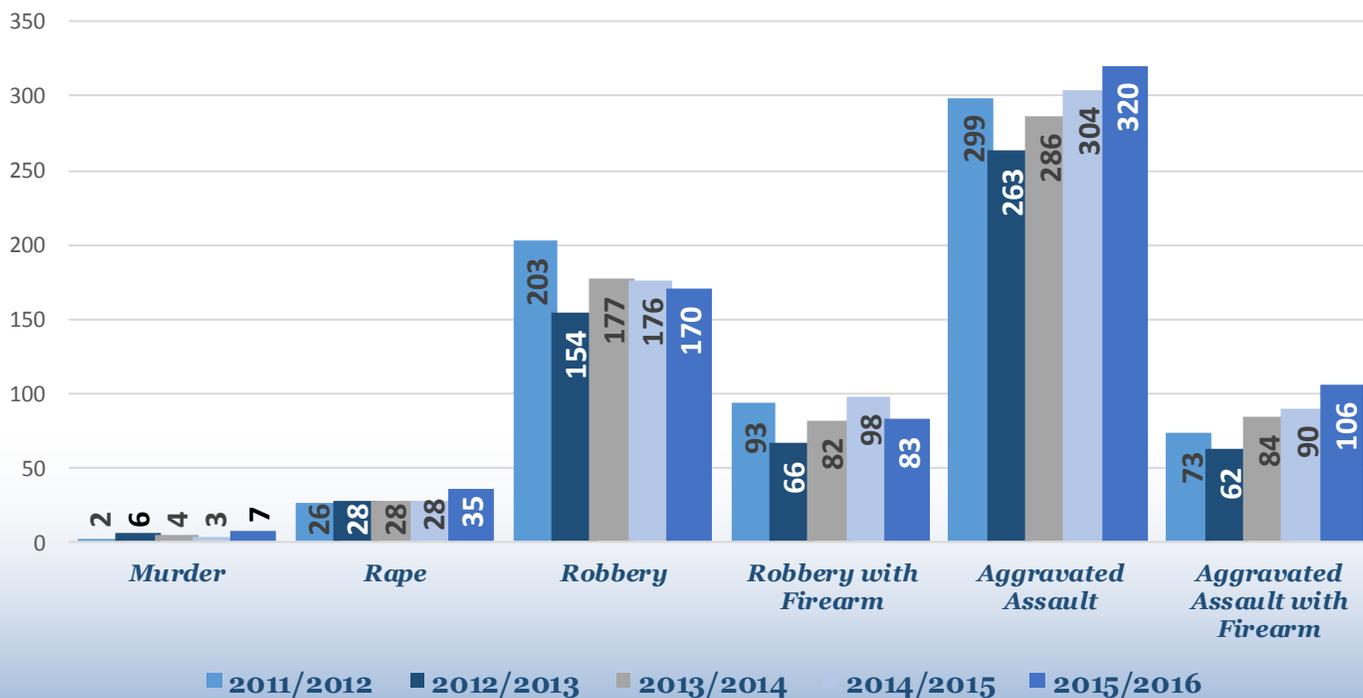

Crime	2011/2012	2012/2013	2013-2014	2014-2015	2015-2016	15-16 from 14-15 % CHANGE

## Violent Crime by Fiscal Year

# Violence Reduction Strategy

In 1997, we began using a strategic, data driven approach to focus on a small number of offenders that drive violent crime in our city.

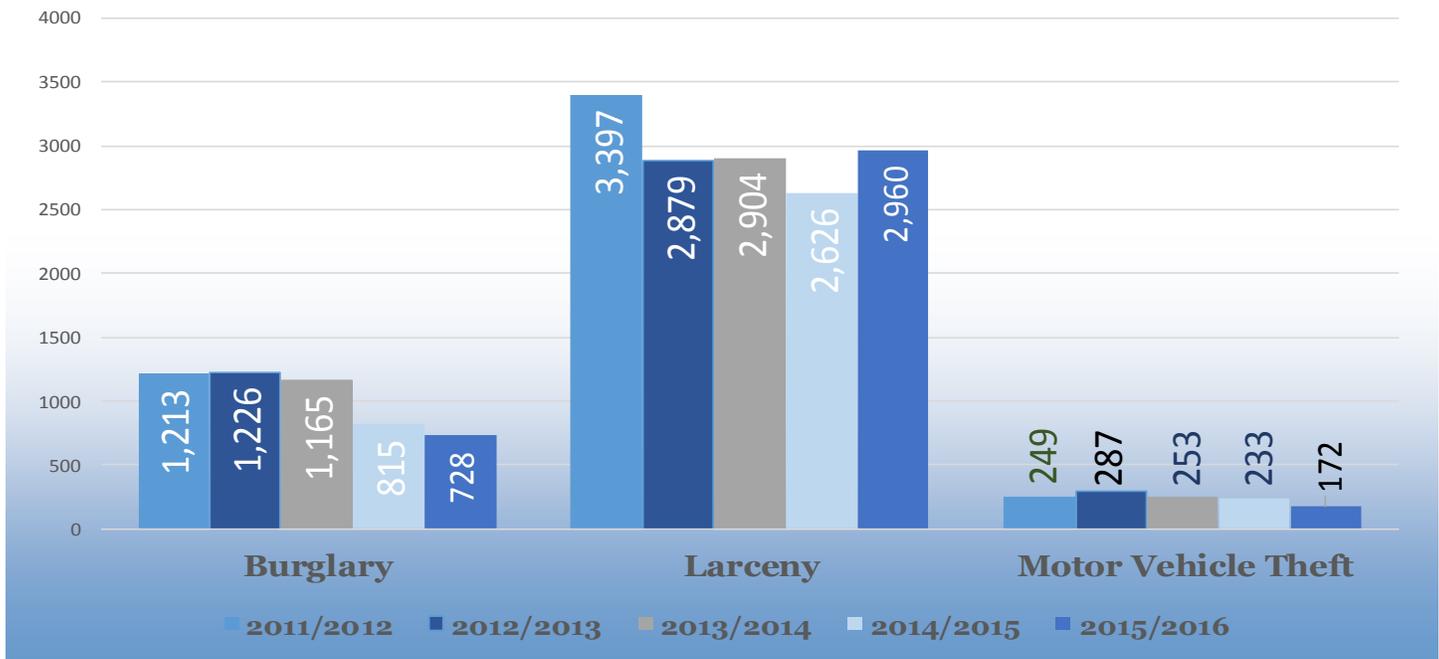

Today, this strategy is known as the High Point Model and is being replicated in cities and towns across our nation. It is accomplished through the continued innovation and hard work of our Violent Crimes Task Force. This group consists of the community group, High Point Community Against Violence, a non-profit organization and includes local law enforcement agencies, ATF, FBI, SBI, DEA, Probation and Parole, District Attorney's Office and US Attorney's Office. The strategy is continuously adjusted in order to address crime trends impacting the city.

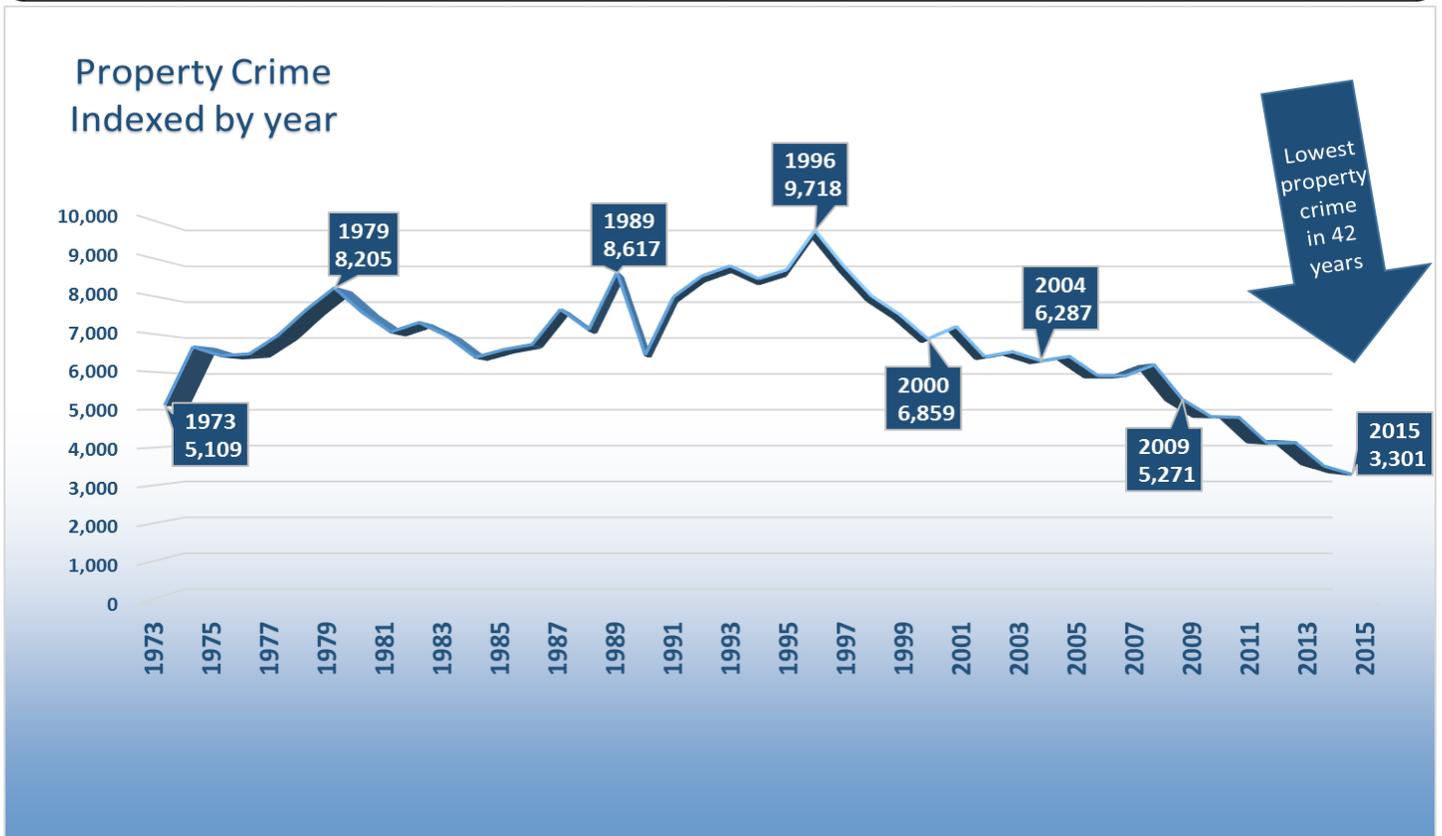

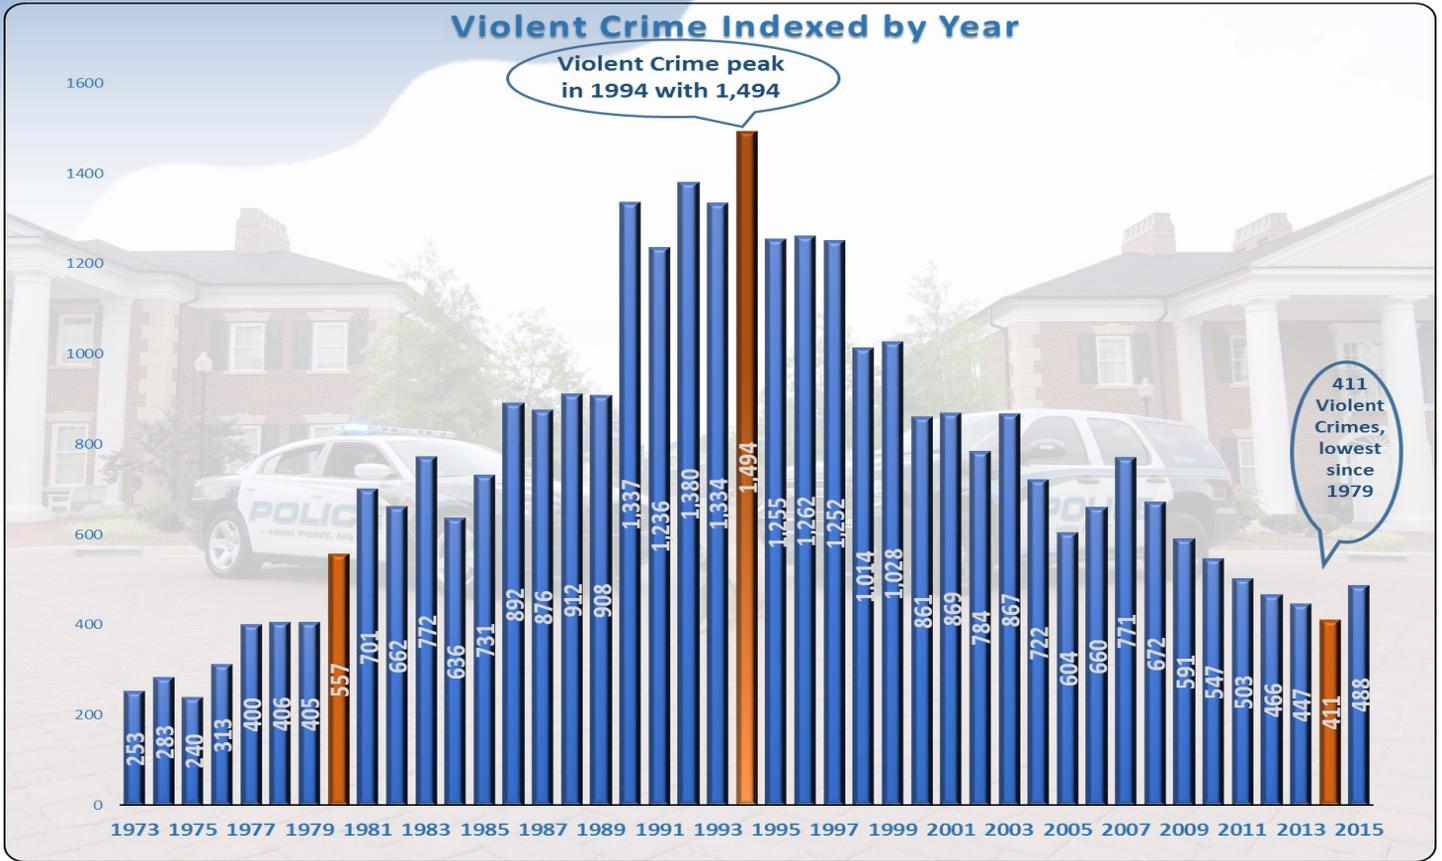

# Property Crime

Crime	2011/2012	2012/2013	2013/2014	2014/2015	2015/2016	15-16 % change from 14-15
